

In the Lawmakers' half the catcher muffed the ball and Morgan got his base after three strikes. Cowan went out at first, but advanced Morgan. Then Jackson made a pretty single, which scored Morgan. Jackson, however, was left on base.

In the ninth inning Anderson singled to left, was sacrificed to second, and came home on Bailey's liner to left. But the next two men flew out to Riggs. The score:

DO GOTCH RESORT TO UNFAIR TRICKS?

Many Think That the Farmer Used Dirty Methods to Beat the Russian.

BY JEFF THOMPSON.

NEW YORK, April 11.—Well, America now has the world's champion wrestler, Frank Gotch, the Iowa plow boy, is the man. After one of the most remarkable bouts ever fought out on the mat, in which there was a combination of rough-house football, rough and tumble boxing, prize fighting and wrestling for two solid hours, the Russian, Lien, bruised and bloody, decided he had enough and the title went to Gotch.

Perhaps Gotch would have won had he wrestled fairly. This is a matter which is open to argument. As a matter of fact, according to the accounts of the fight I have seen, he did practically everything but commit actual foul play. He was, however, a Russian and the complacent referee permitted it to go.

In a statement after the bout Referee Smith said: "The powerful 'Lien' complained several times that Gotch was jabbing his thumb into his eye. He complained of other things, too, but I did not consider that Gotch's transgressions were worthy of more than a caution. Gotch is a pastmaster of all the little tricks that verge on the illegal and unfair, but his knock-out was a fair night I consider to have no bearing at all in incapacitating the 'Lien'."

The end of the contest was dramatic in the extreme. Hackenschmidt, with his eyes fearfully lacerated, his nose torn, his lips and face battered almost beyond recognition, smeared from head to foot with his own blood,

V. M. I. TEAM DEFEATS RICHMOND COLLEGE

[Special to The Times-Dispatch.]

LEXINGTON, VA., April 11.—Richmond College went to pieces early in the game to-day, and Virginia Military Institute scored the runs which gave them the victory. In the third inning Gates reached first on Gwathmey's error, went to second on Scott's sacrifice, and caught home when Gwathmey missed Gwathmey's fly and threw wild to first. A moment later Pollock crossed the plate on Grammer's sacrifice. Lodge's wild throw in the fourth gave the visitors their second run, but after D. Wright replaced G. Wright on the slab in the fifth the home team's scoring stopped. In the home team's seventh inning, Eddie, who went to second when Massie let G. Wright's grounder go through him, and scored on Sheppard's hit. Richmond scored again in the ninth. Devault pitched a beautiful game, and the visitors were unable to solve his delivery. In the eighth inning, G. Wright started out well, but weakened, and was replaced by D. Wright, who pitched good ball. Both teams did rather poor fielding, but in the second inning the ends pulled off a pretty double—Lodge to Beuchamp, Massie to Gwathmey, and a run for Richmond.

that streamed from a score of wounds on his head and arms and body, went to the mat at last with Gotch on top. He was half-blinded, dazed and weary beyond all description. Immediately Gotch leaped upon him like a savage, driving his knees into Hackenschmidt's body, and roughing in the style used when football was legalized man-to-man. The Russian suddenly must the struggle, and appealed to the referee, as he had a score of times before during the bout.

The two men's statements are interesting in conjunction. Joe Gans and Battling Nelson are to mix it again. This time it is to be a 45-round go and they are to fight in "Prisco" some time in May. Gans is to make 175 pounds and Nelson is to weigh as much as he pleases. I don't believe Gans can put Nelson out in 20 rounds under these conditions. I am very sure Nelson can't put Gans out. The negro should get the decision.

I hear Jim Jeffries is considering a proposition to open up a cafe on Broadway. There is no doubt that the big fellow could make a go of it here and he should be able to hand down good money.

News from the South tells of the manner in which Terry McGovern is coming back to his old form. It is said he is down to 140 pounds, has a terrific punch and hopes, when he gets back to New York, to get on a match with Owen Moran. I hope it's all true, for I always did like Terry.

and not a twenty-round bout, as supposed.

Nelson has been thinking of the matter and has come to the conclusion that he is a twenty-round contest with Gans, whose cleverness would give him an advantage in short bouts. Nelson has, therefore, posted a brief of \$2,000 with James W. Coffroth to lead a match with Gans, Coffroth being the only promoter who can pull off bouts of longer duration than twenty rounds.

DEEP RUN HUNT CLUBHOUSE

THE RENDEZ VOUS OF RICHMOND'S CROSS-COUNTRY RIDERS.

HORSES AND HORSEMEN

BY W. J. CAUTER ("Broad Rock.")

William G. Bryan, formerly of Lexington, Ky., but for more than a dozen years past identified with the harness horse interests of Virginia, has taken charge of affairs at Acca Farm, this year, succeeding Silas Smith, who is now in prison charged with the murder of William Murphy, a care-taker at the place.

Bryan is a man of experience in the trotting horse line, having been brought up in the business, as his father, the late Joseph H. Bryan, was a well-known and highly successful breeder in Kentucky and with the good material to work on at Acca he expects to do well. Bryan has developed and campaigned during his residence in this State, horses like Albert C., 2:16 1-2, one of the stoutest hearted and most consistent of Virginia bred trotters; Princess Eulalie, 2:17 1-4, and some other pretty fair money winners.

Among the horses in his stable owned by the lessees, A. T. Griffith and C. W. Saunders, are Akar, chestnut colt, 3, by Aquilin, 2:15 1-4, dam Pavetta, by Fletch, 2:12 1-4; Berro, bay colt, 3, by Bingham, dam Keshora, by Kremlin, 2:07 3-4; Wanda West, 2:22 1-4, the beautiful black daughter of Wanda, that is a show horse and a trotter; Nelly McZeus, 2:26 1-4, by McZeus, 2:15, son of McKinney, 2:11 1-4; Waxy Gaunt, bay mare, 3, by Liberty, 2:07 1-4, dam Wanda West, 2:22 1-4, dam Serpentine, by Mambrino Boy, bay filly, 3, by Fair Promise, 2:29, dam Lucille, by Bannermark, 2:17 3-4, and Luelle, among them a few promising yearlings and two-year-olds.

Happy Tie, 2:25 1-4, the bay mare, owned by General Nelson A. Miles, the United States Army officer, of Boston, that dropped a filly by Blingen, 2:06 1-4, on February 29th, is a Virginia product, having been bred by the late Captain Orris A. Browne, of Cape Charles. An incident connected with the arrival of the filly is that four years must pass now before the daughter of Blingen and Happy Tie can have another birthday. Happy Tie is by Happy Russell, 2:21 1-4, out of Blanche F., 2:33 1-4, dam of Bursary, 2:21 1-4. Bursary, 2:21 1-4, bred by Walker Morrill, sire of Lamp Girl, 2:09, the fastest Virginia bred trotter and now owned in far off Copenhagen.

Happy Tie was bred by Captain Brown when he was managing Hollywood Place, the vast estate of the late L. Scott, the Pennsylvania Railroad magnate and Congressman. Captain Browne owned Blanche F. and bred each of her representatives in the list of standard-bred speed, but the gray daughter of Walker Morrill was too headstrong and excitable for road use, so she was given in record against time and placed in the stud. Her daughter, Happy Tie, was, however, even tempered and rarely made a break; in fact, it was a source of delight and pleasure for the big and genial Virginian to hook her to pole with a runner, when oftentimes on the smooth roads around Cape Charles he would send the pair at a fearful clip, with Happy Tie on a square trot and her running mate oftentimes seemingly strung out. Bursary and Bursary, half-brothers of Happy Tie, were both sired by Bursary, 2:17 1-4, the dead son of Bingham, 2:07 1-4, the sire of the Dan Patch, Jr., 2:27 1-4, one of the

most successful of the breed, and in some cases the veterinarian who wants to have the animal shod "up-to-date," using that wonderful machine made to show just the degree which the hoof should slope. As a matter of fact you will not find any four individual hooves, if you take them just as they are found, without selection, that will naturally admit of the same slope of the hoof to the fraction of a degree, or to a degree, yet when this gauge is used every poor animal must be exacted like the one that was once thought to have the perfect angle. In fact, the simple location of the country, the soil, moisture, etc., has an important influence on the texture of the horse's hoof. Therefore we must not have any such absolute, fixed rule or guide for shoeing horses.

As a matter of fact, if you let them alone some of these expert shoers will turn up nearly as much iron around the sides and at the toes of the horse's foot as they will put underneath to protect the foot from the road or street. I assisted a friend to buy a mare a few years ago which was not only a good individual, but one that had especially good feet; however, she had the misfortune to drop one of her front shoes one day and the driver did not notice this for some time until the mare commenced to go lame, by which time she had naturally worn off quite a lot of the hoof from this foot. But, owing to the fact that her hoof was of unusually good texture the hoof simply wore off even and did not break as a brittle hoof would have done. The driver was then sent to the blacksmith and shod. Now she had one long foot and one short one. Thus she went a little lame or uneven, as the foot of

Q Dance all evening and nothing to pay for music. No one to thank; no one to tire. Q One small payment and the Victor is in your home; a few more and you own it forever. Q The music is just as loud, fine and clear as if you waited months for it to save up the full price. Q Yes, thank yourself for not waiting.
